Sir,

The ICAR-Indian Veterinary Research Institute, Izatnagar (UP), is premier research organization in the field of veterinary science in South-East Asia, which came into existence in the year 1889. In its more than 131 years of eventful journey, the Institute has been a torch bearer for scientific development in the area of veterinary and animal sciences. In order to refreshing and updating the knowledge of field veterinary officers and apprise them the various new technologies and package of practices developed by the ICAR-IVRI, the institute organizes Workshops and Interface meetings with the Veterinary Officers of SDAH and other stakeholders at regular intervals. In this connection, on the occasion of nationwide **celebrations of “Azadi Ka Amrut Mahotsava”**, a **National Campaign on “Advances in Animal Health and Production”** is being organized which would be implemented as a series of **Workshops & follow- up Interface meets** with the various State Departments of Animal husbandry of the country. The first Workshop & follow-up Interface meet in the series is being organized **with the Veterinary Officers of Animal Husbandry Department of Himachal Pradesh on**

11th June, 2024 at 10:00 AM through Hybrid mode (flyer of the programme attached). It would be appreciated if you would nominate all the Veterinary

appreciated, if you would nominate an the Veterinary Officers and higher officials of your Animal Husbandry Department for this meeting. The link for registration and joining the Interface meet has been provided which may be circulated among the nominated participants.

The major mandate of the meeting is to refresh the existing knowledge of field veterinary officers through deliberation by eminent scientists of IVRI on latest research developments in disease diagnosis and management *vis a vis* make them aware about the latest advances & technologies developed by the institute for improving livestock health and production. Further, the follow-up measures on the issues flagged in the previous interface meeting will be discussed.

This type of workshop will strengthen the understanding of disease management capabilities of SDAH personnel's and any issues /problem or constraints faced by them will be thoroughly discussed with panel of scientist from IVRI to find the solutions. The need based researchable areas suggested by field veterinary officers will be taken on priority for future research in the institute.

For registration and joining the programme, please follow the links below:
